LEARN BRAHMI

(From Videha विदेह www.videha.co.in Archive)

GAJENDRA THAKUR

Videha eJournal (link www.videha.co.in) is a multidisciplinary online journal dedicated to the promotion and preservation of the Maithili language, literature and culture. It is a platform for scholars, researchers, writers and poets to publish their works and share their knowledge about Maithili language, literature, and culture. The journal is published online to promote and preserve Maithili language and culture. The journal publishes articles, research papers, book reviews, and poetry in Maithili and English languages. It also features translations of literary works from other languages into Maithili. It is a peer-reviewed journal, which means that articles and papers are reviewed by experts in the field before they are accepted for publication.

Learn Brahmi by Gajendra Thakur (2nd edition) 2023 (including Opensource Projects of Github/ Gitlab of Keyman & Aksharmukha- based on Unicode Projects of Tirhuta (Mithilakshara).

Brahmi

The Brahmi script is ancestral to most of the scripts of South Asia, Southeast Asia, and to some Central Asian scripts. The name Brahmi actually does not refer to a single, discrete script as such; general practise is to use the term to refer to any script in the family now known as Brahmic, up until approximately 400 AD, at which point they became differentiated enough to be given their own names. Brahmic writing was originally used for writing early dialects of the Prakrit language, but spread widely during the period of Indian cultural expansion in the 1st millenium AD and has since provided the underlying design for over sixty scripts used by languages from the Indo-Aryan, Dravidian, Austro-Asiatic and Tibeto-Burman language families. (*from ScriptSource*). Also see Wikipedia and Omniglot

Notes

For general character mapping notes, please refer to Script Matrix .

The Segoe UI Historic font in Windows 10 supports a greater range of ligatures than Noto Sans Brahmi. If you do not see various Brahmi ligatures, it is possibly because of the lack of Segoe Historic UI in your system and Noto Sans Brahmi is being used as the replacement web font.

Brahmi

The Brahmi script is ancestral to most of the scripts of South Asia, Southeast Asia, and to some Central Asian scripts. The name Brahmi actually does not refer to a single, discrete script as such; general practise is to use the term to refer to any script in the family now known as Brahmic, up until approximately 400 AD, at which point they became differentiated enough to be given their own names. Brahmic writing was originally used for writing early dialects of the Prakrit language, but spread widely during the period of Indian cultural expansion in the 1st millenium AD and has since provided the underlying design for over sixty scripts used by languages from the Indo-Aryan, Dravidian, Austro-Asiatic and Tibeto-Burman language families. (*from ScriptSource*). Also see Wikipedia and Omniglot

Devanagari

Brahmi

The Brahmi script is ancestral to most of the scripts of South Asia, Southeast Asia, and to some Central Asian scripts. The name Brahmi actually does not refer to a single, discrete script as such; general practise is to use the term to refer to any script in the family now known as Brahmic, up until approximately 400 AD, at which point they became differentiated enough to be given their own names. Brahmic writing was originally used for writing early dialects of the Prakrit language, but spread widely during the period of Indian cultural expansion in the 1st millenium AD and has since provided the underlying design for over sixty scripts used by languages from the Indo-Aryan, Dravidian, Austro-Asiatic and Tibeto-Burman language families. (*from ScriptSource*). Also see Wikipedia and Omniglot

Sanskrit & Pali · Sanskrit · Pali · Derived: Aramaic

Extinct · Extinct: Ancient · Pan-Indic · Indic

with vowel
a

The below may be empty, if the script does not have a way to denote conjuncts, such as the lack of Virama and/or final consonants.
